

weddings

Boasting breath-taking ocean views, an ambience of pure sophistication and its own private cocktail bar, our reception facility, The Function, will make your wedding day a day to remember for time immemorial.

You will be forever inspired by watching from its balcony a trademark Glenelg ocean sunset, spanning every imaginable colour and hue, haloed in a fresh mist of sea-spray combine the romanticism of our Ferris Wheel or the nostalgia of our century old carousel with the sheer beauty of being by the beach to create a totally unique and moving wedding reception.

Bathed in natural light, able to cater for 200, the function is a state of the art multimedia facility just perfect for hosting your wedding reception.

The Function has an infinite number of layout possibilities and is presided over by an executive chef who will work with you to create a menu of absolute culinary perfection.
